Trade name: Duftstoff Orange Product no.: 166999 Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

## 1.1 Product identifier Trade name

## Duftstoff Orange

1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture

Fragrances Uses advised against No data available.

## 1.3 Details of the supplier of the safety data sheet

 Address
 Koch-Chemie GmbH

 Einsteinstr. 42
 D-59423
 Unna

 Telephone no.
 +49-2303-9 86 70-0

 Fax no.
 +49-2303-9 86 70-26

## 1.4 Emergency telephone number

No data available.

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

Classification in accordance with Regulation (EC) No 1272/2008 (CLP) Acute Tox. 4; H332 Aquatic Acute 1; H400 Aquatic Chronic 1; H410 Asp. Tox. 1; H304 Eye Irrit. 2; H319 Flam. Liq. 3; H226 Skin Irrit. 2; H315 Skin Sens. 1; H317

## **Classification information**

This product is assessed and classified using the methods and criteria below referred to in Article 9 of Regulation (EC)  $n^{\circ}$  1272/2008:

Physical hazards: determined through assessment data based on the methods or standards referred to in part 2 of Annex I to CLP

Health hazards and environmental hazards: determined through toxicological and ecotoxicological assessment data based on the methods or standards referred to in Part 3, 4 and 5 of Annex I to CLP.

## 2.2 Label elements

## Labelling according to Regulation (EC) No 1272/2008 (CLP Regulation)

## Hazard pictograms

Signal word Danger

Hazardous component(s) to be indicated on label:

# Trade name: Duftstoff Orange Product no.: 166999

Current version : 1.0.0, issued: 26.11.2020

2-butoxyethanol Orange, sweet, ext. 3,7,7-trimethylbicyclo[4.1.0]hept-3-ene geraniol linalyl acetate alpha-hexylcinnamaldehyde nerol 2-(4-tert-butylbenzyl)propionaldehyde Hazard statement(s) Flammable liquid and vapour. H226 H304 May be fatal if swallowed and enters airways. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H332 Harmful if inhaled. Very toxic to aquatic life with long lasting effects. H410 Precautionary statement(s) P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing vapours/spray. P273 Avoid release to the environment. P280 Wear protective gloves/eye protection/face protection. IF SWALLOWED: Immediately call a POISON CENTER/doctor. P301+P310 Call a POISON CENTER/doctor if you feel unwell. P312 P331 Do NOT induce vomiting.

## 2.3 Other hazards

## PBT assessment

According to the information provided in the supply chain, the mixture does not contain > 0.1% of a substance that is considered to be PBT.

#### vPvB assessment

According to the information provided in the supply chain, the mixture does not contain > 0.1% of a substance that is considered to be vPvB.

## **SECTION 3: Composition/information on ingredients**

## 3.1 Substances

Not applicable. The product is not a substance.

## 3.2 Mixtures

## Hazardous ingredients

**SECTION 4: First aid measures** 

#### Product no.: 166999

Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

## 4.1 Description of first aid measures

#### General information

Remove contaminated clothing and shoes immediately, and launder thoroughly before reusing. In case of persisting adverse effects, consult a physician. In case of allergic symptoms, especially respiratory tract related, seek medical help immediately.

#### After inhalation

Remove affected persons from dangerous area by observing suitable respiratory protection measures. Ensure supply of fresh air. If unconscious place in recovery position and seek medical advice. Irregular breathing/no breathing: artificial respiration.

#### After skin contact

In case of contact with skin wash off with water. Consult a doctor if skin irritation persists.

#### After eye contact

Remove contact lenses. Rinse eye thoroughly under running water keeping eyelids wide open and protecting the unaffected eye (at least 10 to 15 minutes). Seek medical assistance.

#### After ingestion

Rinse mouth thoroughly with water. Do not induce vomiting - aspiration hazard. Never give anything by mouth to an unconscious person. Call a doctor.

## 4.2 Most important symptoms and effects, both acute and delayed

#### Effects

In the case of swallowing with subsequent vomiting, aspiration of the lungs can occur which can lead to chemical pneumonia or asphyxiation.

## 4.3 Indication of any immediate medical attention and special treatment needed

No data available.

## **SECTION 5: Firefighting measures**

## 5.1 Extinguishing media

## Suitable extinguishing media

Water spray jet; Alcohol-resistant foam; Carbon dioxide; Dry chemical extinguisher

#### Unsuitable extinguishing media

High power water jet

## 5.2 Special hazards arising from the substance or mixture

In the event of fire, the following can be released: Carbon monoxide (CO); Carbon dioxide (CO2); Vapours are heavier than air and may spread near ground to sources of ignition. May travel considerable distance to source of ignition and flash back.

## 5.3 Advice for firefighters

Use self-contained breathing apparatus. Wear protective clothing. Containers close to fire should be transferred to a safe place. Cool closed containers exposed to fire with water.

## **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

## For non-emergency personnel

Refer to protective measures listed in sections 7 and 8. Keep away from ignition sources. Do not inhale vapours.

#### For emergency responders

Personal protective equipment (PPE) - see section 8.

#### 6.2 Environmental precautions

Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil. In case of entry into waterways, soil or drains, inform the responsible authorities.

## 6.3 Methods and material for containment and cleaning up

#### Product no.: 166999

Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13).

#### 6.4 Reference to other sections

Information regarding safe handling, see section 7. Information regarding personal protective measures, see section 8. Information regarding waste disposal, see section 13.

## **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

#### Advice on safe handling

Risks inherent to handling the product must be minimised by applying the appropriate protective and preventive measures. Working processes should - so far as possible, according to the state of the art - be designed to rule out bodily contact or the release of hazardous substances.

#### General protective and hygiene measures

Do not eat, drink or smoke during work time. Keep away from foodstuffs and beverages. Do not inhale vapours. Avoid contact with eyes and skin. Wash hands before breaks and after work. Remove contaminated clothing and shoes and launder thoroughly before reusing. Provide eye wash fountain in work area. Have emergency shower available.

## Advice on protection against fire and explosion

Vapours can form an explosive mixture with air. Isolate from sources of heat, sparks and open flame. Take precautionary measures against electrostatic loading (earthing necessary during loading operations). Use explosion-proof equipment/fittings and non-sparking tools.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Technical measures and storage conditions

Keep container tightly closed. Store in a dry place. Protect from heat and direct sunlight.

#### **Recommended storage temperature** Value

Room temperature

#### Requirements for storage rooms and vessels

Containers which are opened must be carefully closed and kept upright to prevent leakage. Always keep in containers of same material as the original.

#### Incompatible products

Substances to be avoided, see section 10.

#### 7.3 Specific end use(s)

No data available.

**SECTION 8: Exposure controls/personal protection** 

## 8.1 Control parameters

#### **Occupational exposure limit values**

## 8.2 Exposure controls

## Appropriate engineering controls

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL (=Occupational Exposure Limit), suitable respiratory protection must be worn.

#### Personal protective equipment

#### **Respiratory protection**

If workplace exposure limits are exceeded, a respiration protection approved for this particular job must be worn. In case of aerosol and mist formation, take appropriate measures for breathing protection in the event workplace threshold values are not specified. Filter A or environment-independent breathing apparatus.

#### Eye / face protection

Safety glasses with side protection shield (EN 166)

## Hand protection

Sufficient protection is given wearing suitable protective gloves checked according to i.e. EN 374, in the event of risk of skin contact with the product. Before use, the protective gloves should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties). Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves. Protective gloves shall be replaced immediately when physically damaged or worn. Design operations thus to avoid permanent use of protective gloves.

| Appropriate Material | butyl rubber |     |     |
|----------------------|--------------|-----|-----|
| Material thickness   | >=           | 0,5 | mm  |
| Breakthrough time    | >            | 120 | min |

### Other

Chemical-resistant work clothes.

**Environmental exposure controls** No data available.

## **SECTION 9: Physical and chemical properties**

Trade name: Duftstoff Orange Product no.: 166999 Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

## 9.1 Information on basic physical and chemical properties

| Form/Colour  |                      |             |                   |
|--|----------------------|-------------|-------------------|
| liquid<br>orange   |                      |             |                   |
|  |                      |             |                   |
| Odour  |                      |             |                   |
| fruity   |                      |             |                   |
| Odour threshold  |                      |             |                   |
| No data available  |                      |             |                   |
| pH value   |                      |             |                   |

## 9.2 Other information

Other information No data available.

## SECTION 10: Stability and reactivity

## 10.1 Reactivity

No data available.

## 10.2 Chemical stability

Stable under recommended storage and handling conditions (See section 7).

## 10.3 Possibility of hazardous reactions

Dangerous reactions are not to be expected when handling product according to its intended use.

## **10.4** Conditions to avoid

Heat, naked flames and other ignition sources. Static discharges.

## 10.5 Incompatible materials

strong oxidizing agents; light metals

**10.6 Hazardous decomposition products** No hazardous decomposition products known. Trade name: Duftstoff Orange Product no.: 166999

## 12.4 Mobility in soil

No data available.

## 12.5 Results of PBT and vPvB assessment

| Results of PBT and vPvB assessment |  |
|------------------------------------|--|
| PBT assessment                     | According to the information provided in the supply chain, the mixture does not contain > 0.1% of a substance that is considered to be PBT.  |
| vPvB assessment                    | According to the information provided in the supply chain, the mixture does not contain > 0.1% of a substance that is considered to be vPvB. |

## 12.6 Other adverse effects

No data available.

## 12.7 Other information

## Other information

Do not let enter the product into drains or waterways and do not store on public depositories.

## SECTION 13: Disposal considerations

## 13.1 Waste treatment methods

Trade name: Duftstoff Orange Product no.: 166999 Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

#### Product

Disposal of the product should be carried out in accordance with all applicable regulations following consultation with the responsible local authority and the disposal company in an authorised and suitable disposal facility. Allocation of a waste code number, according to the European Waste Catalogue, should be carried out in agreement with the regional waste disposal company.

#### Packaging

Residuals must be removed from packaging and when emptied completely disposed of in accordance with the regulations for waste removal. Incompletely emptied packaging must be disposed of in the form of disposal specified by the regional disposer.

## **SECTION 14: Transport information**

|                      |                    |

#### **14.4 Other information** No data available.

## 14.5 Environmental hazards

Information on environmental hazards, if relevant, please see 14.1 - 14.3.

- 14.6 Special precautions for user No data available.
- 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code Not relevant

## **SECTION 15: Regulatory information**

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture <u>EU regulations</u>

Regulation (EC) No 1907/2006 (REACH) Annex XIV (List of substances subject to authorisation) According to the data available and/or specifications supplied by upstream suppliers, this product does not contain

#### Product no.: 166999

Current version : 1.0.0, issued: 26.11.2020

Replaced version: -, issued: -

Region: MT

any substances considered as substances requiring authorisation as listed on Annex XIV of the REACH regulation (EC) 1907/2006.

## REACH candidate list of substances of very high concern (SVHC) for authorisation

According to available data and the information provided by preliminary suppliers, the product does not contain substances that are considered substances meeting the criteria for inclusion in annex XIV (List of Substances Subject to Authorisation) as laid down in Article 57 and article 59 of REACH (EC) 1907/2006.

| Regulation (EC) No 1907/2006 (REACH) Annex XVII: RESTRICTIONS ON THE MANUF.<br>THE MARKET AND USE OF CERTAIN DANGEROUS SUBSTANCES, MIXTURES AND A |  |
|---|--|
| The product is considered being subject to REACH regulation (EC) 1907/2006 annexNo 3, 40XVII.   |  |

| Directive 2012/18/EU on the control of major-accident hazards involving dangerous                                     | substances |
|---|------------|
| This product is subject to Part I of Annex I, risk category:  | E1, P5c    |
| If the properties of the substance/product give rise to more than one classification, for the purposes of 2012/18/UE, |            |
| the lowest qualifying quantities set out in Part 1 and Part 2 of Annex I shall apply.                                 |            |

#### Other regulations

Adhere to the national sanitary and occupational safety regulations when using this product. Employment restrictions, according to the regulations for protection of expectant and nursing mothers and the youth health and safety regulations, serving to protect against hazardous materials, should be observed.

## 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for this mixture.

## **SECTION 16: Other information**

## Sources of key data used to compile the data sheet:

Regulation (EC) No 1907/2006 (REACH), 1272/2008 (CLP) as amended in each case.

Directives 2000/39/EC, 2006/15/EC, 2009/161/EU, (EU) 2017/164.

National Threshold Limit Values of the corresponding countries as amended in each case.

Transport regulations according to ADR, RID, IMDG, IATA as amended in each case.

The data sources used to determine physical, toxic and ecotoxic data, are indicated directly in the corresponding section.

# Full text of the H- and EUH- phrases drawn up in sections 2 and 3 (provided not already drawn up in these sections)

| H302  | Harmful if swallowed.                            |
|-------|--|
| H312  | Harmful in contact with skin.                    |
| H318  | Causes serious eye damage.                       |
| H361f | Suspected of damaging fertility.                 |
| H400  | Very toxic to aquatic life.                      |
| H411  | Toxic to aquatic life with long lasting effects. |
